- 1.4.43. D/A advised: 4084 has now taken charge of the Dutch Section and will use the symbol N.
- 9.5.44. STS.34. Finishing Report: He is of average intelligence, quite shrewd and practical, with imagination and initiative. Although trustworthy and reliable he is inclined to be temperamental and self-satisfied. He got on reasonably well with other members of the party but he is not a very good mixer and his personality is rather un congenial. He creates the impression of being a disappointed man.
CODES: Took a keen interest in codes work and was accurate. He should have further practice on his conventions.
- 18.5.44. AG advised: 4084 transferred from N. to B/B Section w.e.f. 7.4.44.
- 7.6.44. 4084 left the U.K. for Australia.
- 29.6.45. There are some old papers in the Personal Cases file in D/OE safe relating to matters which occurred before 4084 took charge of the Dutch Section. Towards the end of the time when he was in charge of the Dutch Section he lost the confidence of the Dutch authorities. S.O.E. could not agree that there was any basis for this loss of confidence. The type of matter which caused this loss of confidence is to be found in the BSS files of interrogations of returned agents.
- 1.12.45. D/AG advised: 4084 has been s.o.s. of M.E.100 w.e.f. 1.11.1945., on being attached to UKALS for duty or pending posting to Civil Service Unit in Far East.
